

Site: Face Mountain (Mars)

Overview: A colossal, face-shaped mountain on Mars, hiding an ancient Atlantean outpost beneath its surface. The air is thin, gravity is low, and the tech is alien.

Portal: A seamless granite door embedded in the mountain's "mouth," quantum-locked. Requires a battery and a navigation crystal to activate.

Discovery: Science/Arcana roll (DC 18) to find the door and decipher Martian glyphs. Avoid detection by automated sentries.

Puzzle: Solve a holographic star-map puzzle and synchronize the portal with Earth. Power the door with a battery.

Success: Access to the Martian outpost, find an Atlantean key, and a message from the "Red Watchers." Gain a vision of the final Giza repository.

Failure: Sentries activate, or the portal destabilizes (risk of being stranded on Mars).

Item Drops: Atlantean key, Martian battery, fragment of a navigation map.

Revelations: - "The red star rises—one key is found, but two more are needed." - "You will need three keys, three batteries, and three messages to reach the final library." - "A vision of a sunken city beneath the waves (hint: ocean Giza clone)." - "The rites of three lands are required for the last passage." - "The Watchers warn: 'Do not awaken what sleeps beneath the sand.'"
