BACKGROUND

You're a rising star on the influencer scene, headed to Egypt for the ultimate streaming challenge: activating ancient Atlantean tech hidden within the pyramids! The catch? It runs on Tesla Coil power, beamed remotely, and that costs serious cash. Your stream's success directly funds the energy transfer – more views, more power, bigger tech activation. Fail to impress your audience, and you might only power up a toaster... ancient Atlantean toaster, but still. Time to go live!
