@CleoOnlyFans

## BACKGROUND

With 3.5M OnlyFans subscribers, Nova Cleo's @CleoOnlyFans account is a fusion of Cleopatra chic and sci-fi fashion. But it's more than a brand. After a near-fatal accident, Nova experienced vivid visions of a past life as an Atlantean priestess. Now, she uses her influencer fame to fund expeditions to ancient sites, desperately seeking to understand her visions, which she believes are a key to unlocking a forgotten power. Her persona is a mask for a woman searching for her true self across time. Personal Quest: To locate a specific, hidden chamber she saw in her visions, which she calls the "Chamber of Echoes," believing it holds the key to her past self. Key Rival: A skeptical journalist, Ben Carter, who is trying to expose her as a fraud, forcing her to be ever more elaborate in her persona.
