

CHARACTER

Dr. Varn
@AncientTechOracle

BACKGROUND

Former astrophysicist obsessed with ancient alien theories. With 2.3M followers on YouTube (@AncientTechOracle), he's become a leading voice in alternative archaeology. His channel, known for dramatic reveals and theatrical presentations, funds his global expeditions. Believes megalithic sites are stargates and travels the world seeking proof. Wears a tinfoil hat unironically in public. Carries a custom-made device he claims can detect ancient energies. Often speaks in cryptic pronouncements about celestial alignments and cosmic energies. Always equipped with his latest smartphone, a drone for aerial shots, and a portable satellite internet setup, he maintains a constant live stream of his "energy readings" and discoveries.
