

CHARACTER

Sapphire Skye Monroe
@sapphireontherise

BACKGROUND

To her 3.2M TikTok followers, @sapphireontherise is a hilariously clueless "Spiritual CEO." In reality, it's a carefully crafted act. Sapphire's parents were respected academics ruined for their controversial theories on Atlantis. Now, she uses her influencer income to fund a secret investigation into their work, playing the fool to get access to sites and information that would be denied to anyone taking the subject seriously. Her true goal is to find the proof that will vindicate her family's name. Personal Quest: To find the "Atlantean Star-Chart" her parents were searching for when they were discredited, believing it's the ultimate proof of their theories. Key Contact: Dr. Miles Corbin, her parents' most loyal (and now disgraced) colleague, who guides her research from the shadows.
